Leaf & Yard Cleanup

Gardener Select™ Lawn Refuse Bag

Paper bag for moist or dry yard waste disposal. Ideal for composting. This bag is made from paper, a renewable natural resource not harmful to domestic pets, birds, fish or other wildlife. It can be placed in a backyard composter or hauled to a community compost site where the bag and its organic contents will biodegrade. Composting is an environmentally beneficial way to manage yard waste. It turns leaves, grass clippings, and other plant material into rich mulch or soil conditioner that can be used in landscaping and gardening. For a better tomorrow, compost today! Each bag measures 16in W x 12in D x 35in H.

5pk - 2ply Heavy-Duty, 30gal Capacity Bags

Grower Select® Wine Barrel

With a down-home, country-style feel, this wine barrel creates the perfect combination of elegance and simplicity to your outdoor or indoor living space. HDR construction for a lightweight and durable planter that will last longer than traditional wooden barrels and can withstand outdoor seasonal elements and everyday use. These resin alternatives to heavier substrates that carry higher price points will prove convenient to your gardening budget. They also include UV protectors to increase resistance to cracking and fading. Your vibrant colored flower or vegetable arrangements will provide a pleasing pop of color in these dark, faux-wood planters.

Specialty Containers

Grower Select® Untreated Wood Baskets

Wood packaging has been used primarily in farming for thousands of years. Since 1950, wood packaging (baskets) was the main package used to ship fresh fruits and vegetables. In order to preserve the environment and health of those who use these baskets, all colors are made from food-safe dyes. Unfortunately, that means that the colors can bleach or run if overly exposed to water or sunlight and the dye tint may vary slightly. Made in the USA.

Water Soluble Fertilizer

Grower Select® Water Soluble Fertilizers

Grower Select® fertilizers are manufactured in North America and feature the highest quality components. Each blend is based on the most popular formulations with excellent solubility and a complete micronutrient package. Save money without compromising on performance.

Grower Select® Cal-Mag Triple Iron 16-3-16 Water Soluble Fertilizer

Similar to 17-5-17 but with lower P to prevent stretching and three forms of chelated iron to ensure Fe is available to plants even at a high substrate pH. A versatile utility player with balanced calcium and magnesium and neutral potential acidity.

25lbs
PLNTX12482 **Min. Buy** 1 EA

Grower Select® Mag Triple Iron 18-6-18

Great choice for Petunias, Calibrachoa, Pansies, Vinca, Verbena and other plants that benefit from extra iron. Three sources of chelated iron, potential acidity of 339lbs $CaCO_3$, and extra magnesium ensure your plants have dark green foliage. Excellent if you have high alkalinity irrigation water because it acidifies and also adds Mg to keep your Ca to Mg ratio in balance. (SHIPS HAZ)

25lbs
PLNTX12483 **Min. Buy** 1 EA

Grower Select® 20-20-20 Water Soluble Fertilizer

A classic blend with a balanced formula that is effective on all types of plants and can be used for general feeding when a specific formula is not called for. Like all Grower Select® fertilizers, 20-20-20 has a complete micronutrient fertilizer featuring chelated iron for optimal plant availability.

25lb (80/PL)
PLNTX12479 **Min. Buy** 1 EA

Grower Select® Fertilizer 20-10-20

Grower Select® 20-10-20 serves as the backbone to a cost effective fertility program. Over 60% of nitrogen comes in nitrate form and includes magnesium as well as a complete micronutrient package featuring chelated iron. Lower phosphorous content minimizes plant stretching, making this ideal for growing in low light conditions. (SHIPS HAZ)

25lb (80/PL)
PLNTX12480 **Min. Buy** 1 EA

Grower Select® 17-5-17 Water Soluble Fertilizer

An economical all-in-one fertilizer featuring high levels of nitrate and no urea. You'll get 5 macronutrients in one bag (N, P, K, Ca, Mg) as well as a complete micronutrient package with chelated iron. This neutral formulation will have minimal impact on soil & water pH, making it a great option in many growing situations. (SHIPS HAZ)

25lb (80/PL)
PLNTX12481 **Min. Buy** 1 EA

Loose Fill Media

Grower Select® H2 Professional Mix

H2 Professional Mix is a heavy-weight bark mix formulated for use in larger containers and longer term crops, both in greenhouses and outdoors. H2's higher ratio of bark:peat gives it an excellent balance of porosity and water holding capacity. 55% Bark, 30% Peat Moss, 15% Perlite.

Sleeves

Grower Select® HDPE/Satin Sleeves

HDPE Is the most economical and one of the strongest materials to make sleeves out of. It is see-through, but it has a milky white haze to it. This material is sometimes referred to as a satin. It is very durable and handles very easily. HDPE is easily recycled; it is the same material that plastic grocery bags are made of. All sizes are in inches and measure Bottom Opening x Top Opening x Height. These sleeves will fit the indicated pots. All HDPE sleeves are on wood headers and have vent holes. Height includes the lip on these sizes.

Grower Select® CPP/Clear Sleeves

Cast polypropylene is a clear, stiff material. Use this type of sleeve when presentation is key. Your plants can be left in the sleeves and the customer will have a perfect view. CPP is recyclable.

Cold Frames / High Tunnels

Grower Select® Cold Frames / High Tunnels

Designed for overwintering nursery stock or as a temporary growing area. An optional extended stake package is available for extra height. The house can be purchased without stakes and can be made portable by using a baseboard to connect the bows. Most often used with a single purlin with hoop/bow spacing at 4ft O.C. to help eliminate pocketing. (Build your own endwall to complete the structure). Simple design for easy installation. Add-on options include: purlin runs and baseboard clamps.

Extrusions for Polycarbonate

Grower Select® Aluminum U-Profile 8mm

Used as a perimeter cap on sidewalls and gables and is used in conjunction with our H-profile to provide structure for polycarbonate panels. Fasten to the structures (on sidewalls and gable ends) with wood screws or self-tapping tek screws. When used as a base, weep holes should be drilled every 12in to allow the condensate to drain.

Single Splice - 12ft - 8mm
GSS15102 Min. Buy 1 EA

Grower Select® Aluminum H-Profile 8mm

Available in 12ft sections, it is used to splice the panels on sidewalls and gables and is used in conjunction with the U-profile. Fasten to structure with wood screws or self-tapping Tek screws.

Double Splice - 12ft
GSS13693 Min. Buy 1 EA

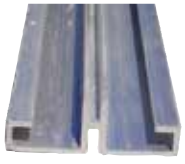
Grower Select® Bar Cap

Used to fasten down the polycarbonate once it's been installed within the Bar Base framework. 1/2in cap screws should be used to secure it to the bar base every 12in. Can be used with or without neoprene gaskets which are sold separately.

8nn - 24ft
GSB01600
Min Buy 1 PC

Grower Select® Bar Base

Used in conjunction with our Bar Cap to splice panels over bows or span purlins with a maximum recommended span of 4ft x 6ft. Fasten to the structure with wood screws or standard tek screws.



8mm - 24ft
GSB01640
Min Buy 1 PC

Grower Select® Aluminum End Cap

Used for top, bottom and side closure in roof applications in conjunction with the Bar Base and Bar Cap for polycarbonate sheets. Fasten to the structure with wood screws or standard tek screws. When used as a base, weep holes should be drilled every 12in to allow the condensate to drain. Sold by the piece.

Grower Select® Gutter Lock Base

12ft gutter lock base only. A component to be used for greenhouse structures.

Base Only - 12ft
GSS13696 **Min. Buy** 1 EA

Spring Lock Base

Grower Select® Spring Lock Base

Spring lock doesn't pinch, bind, or weaken the material it secures and can be formed to the top of curved bows. It can be secured to any structural members, and can be installed around gable ends. Works by pulling the material across the channel and inserting the spring into place in the bottom channel. Can hold from 2 to 20 mil thickness and multiple layers. Requires two pieces of zigzag wire, also called zipper, wiggle wire or springlock spring (Item GSE09560) to complete the lock.

Base Only - 12ft
GSS14498 **Min. Buy** 1 EA

Grower Select® Spring Lock Spring

Also referred to as wiggle wire, zippers, or zigzag wire. Works with aluminum spring lock base (GSS14498, Sold Separately) to lock single sheet of poly film down on the greenhouse.

6ft 6in - Sold by Bundle of 20
GSE09560 **Min. Buy** 1 EA

Roll-Up Sidewall Systems

The right environment is imperative for growing healthy plants. Rollup sidewalls help you control airflow, temperature, and humidity in a greenhouse all year long.

Our Rollup Sidewall Kits can be integrated into any greenhouse style and make it easy to naturally vent and change the environment inside the greenhouse quickly.

Choose from our manual or motorized starter kits. Each kit will cover a 12' section on one side of a greenhouse. Add an extension kit to cover each additional 12' of your greenhouse.

Grower Select® Motorized Roll-Up Sidewall Starter Kit

Kit includes tubing, all the hardware needed for installation and a 24V roll up motor that can handle sidewalls 7ft tall up to 100ft long. Plastic film for covering is sold separately.

Greenhouse Ventilation

Grower Select® Convection Tubes
The convection tube is a polyethylene tube that runs the length of the house and forces air through holes spaced along the tube. This system is best suited for houses that have a lot of obstructions. Convection tube systems can be designed for a number of different uses.

Cooling/Air Circulation
Fan and shutter kits allow outside air to be introduced into the greenhouse environment and distributed evenly throughout the house. They can also be used with the fan alone to provide air movement throughout the house instead of HAF fans.

Heating
Heat Kits allow use of gas fired, electric, steam or hot water unit heaters without outside air passing through the heat exchanger. These kits use a fan system to attach to the convection tube and allow heated air from a heat source to be forced down the length of the house through the tube.

Our convection tube is available in standard stock diameters of 18in, 24in and 30in x 100ft punched. Our 4 mil UV-inhibited clear polyethylene tubing is engineered for uniform distribution and proper mixing of air to produce the best aerodynamic effect in the greenhouse. All of our convection tube is made from a UV stabilized greenhouse film.

Grower Select® Black Rubber Swivel Caster
This 5in x 2in Black Rubber Swivel Caster (Thermoplastic Rubber) features a shock-absorbing cushioned ride, while providing good floor protection and quiet rolling operation. Featuring weight capacities of 75 to 1100 pounds per wheel, the 75 Shore A TPR wheel tread is chemically bonded to a polyolefin core and has an operating temperature range of -40°to +180° Fahrenheit. It is resistant to cleaning chemicals, acids, alcohol, and water. TPR wheels are an excellent choice for wash-down applications.

5in x 2in Wheel - 6-1/2in Overall Height - Sold by The Each

GrowerSelect®

Retail & Production Benching

BFG Grower Select benching represents the most efficient, flexible and presentable benching available in the marketplace. Don't just use "block and board" for your presentation – we produce both double deck and modular benching, with re-supply racks underneath.

Our retail benching features complete coverage of sharp expanded metal edges, corner protectors and plastic caps on all tube ends and legs. A highly efficient and flexible way to enhance the image of your operation and present your products.

BFG Grower Select production benching can be ordered as rolling or stationary benches, in freestanding or cemented styles, even customized to fit your specific needs – all at a very economical price. These production benches are loaded with features designed to maximize your efficiency and assist in your profitability. Available with expanded galvanized top panels or plastic panels.

Retail Benching

Quality Products Need Quality Displays!

Grower Select® works with some of the largest and most well-known retailers to provide them with benching that is efficient, flexible, and presentable. Our retail benching features complete coverage of the sharp expanded metal ends, corner protectors, and plastic caps on all legs and tube ends.

Grower Select®

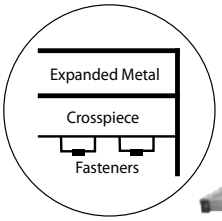
ULTRA Plastic Top Benching

Grower Select® ULTRA benches include all the features of our traditional benching – aluminum side rails, molded corner protectors and plastic caps on all tube ends and legs – combined with durable, smooth, non-porous plastic bench tops that allow trays, flats, and pots to slide across the surface without snagging.

The polypropylene panels feature 1.1in x 2.1in rectangular holes for easy cleaning, and will not rot, crack, or splinter like wood products nor corrode or rust like expanded metal or wire tops.

We produce thousands of square feet of rolling benches every year. Our benches can be rolling or stationary, freestanding or cemented. We can usually customize to fit your needs at a very economical price. Free engineering and layout planning is available along with a full list of references.

Our production benches feature a 20lb/sq ft load capacity and have 3/4in pre-galvanized expanded metal tops. Our special aluminum side rails completely cover all of the sharp expanded metal edges and no more torn pants with our corner protectors. Expanded metal can be flattened for plug trays or left standard. You can also chose plastic panel tops. Anti-tip/roller spacers are optional. Allow four weeks for delivery.



Production Benching

Available as Rolling or Stationary

Aluminum Side Rails
No exposed expanded metal edges. Extra Strength. Enhances appearance.

1-1/2in Hat Section Crosspieces
Wider base to support the expanded metal. Standard spacing 2ft o.c. (optional 12in or 16in spacing)

1.315in Rollers
Swaged ends. Plastic caps. No connectors to interfere with rolling.

Anti-Tip/Roller Aligner
Wider aisles. Off loading from either side. Constantly aligns rollers.
